ABOUT ME

I am a self-motivated software developer with experience in both front-end and back-end development. My knowledge of designing real-world problem-solving products has grown as a result of my experience with personal projects, freelancing projects, and hackathons. I'm very enthusiastic about continuing to learn and improve my skills.

SKILLS & PROFICIENCIES

- Javascript
- React.js, Redux, Context API
- Node.js, Express.js
- Harperdb
- Git Bash, PowerShell.

CERTIFICATION & VOLUNTEER WORK

Best Graduating Fellow (Honors Award)

Tiidelab Initiative

Jan 2021

Awarded for coming out top in the frontend track at the cohort 2 of TIIDELAB software development fellowship under the ITF - NECA technical skills development program.

Exemplary leadership (Honors Award)

Tiidelab Initiative

Jan 2021

For an outstanding display of leadership and commitment to the success of my team project and coming 1st position during the TIIDELAB Fellowship Program between August 2020 and January 2021.

Certificate of Recognition

Penmen Publication

Oct 2021

Writing the most outstanding article titled

"Creating your first CRUD Restful API with Node.js and Hoppscotch"

WORK HISTORY

Front-end Developer (Freelance)

Palmanovas

February 2021 - April 2021

Responsible for designing and developing the company's investment platform. I oversee the conversion of the existing website to react.js and report directly to the CTO.

Front-end Developer (Freelance)

DigitalNest

March 2021 - September 2021

Redesign the Tv24Africa news website in **React** and **Context API**. I was in charge of the premium subscription feature, and oversee the logical part of the front-end.

Fullstack Developer (Hackathon)

Hashnode x Harperdb

June 2021 - July 2021

Designed and launched the developer typing game within a month for the hackathon. The front-end was designed using **React.js** and **Redux** for state management while the back-end was developed with **Node.js**, **Express.js**, and **Harperdb**, the project came in runner-up and has over 500 users.

Fullstack Developer (Hackathon)

Hashnode x Clerk

July 2021 - Aug 2021

Designed and developed the anonymous feedback platform using **React.js** for the front-end and **Node.js**, **Express.js**, and **Harperdb** for the backend. The project came in runner-up and has premium subscribers.

Fellows Technical Support

Tiidelab Initiative

Aug 2021 - till Date

Provide technical guidance and support to fellows who are enrolled in advanced React.js and Node.js programs.
